Show Committee Report

Greetings from the Money Show Committee. We made the announcement last club meeting, that the Northwest Coin Club will be assisting the MOON organization at the coin show they have planned for October 8th - 10th, 2021. The ways in which we will assist them will be the same way that we ask for volunteers at our show that is held in March of each year. We will need to fill time slots for the front desk and head table for each of the 3 days of the show. These time slots will be broken up into manageable hours to allow all members the opportunity to help. We will also need a few people to be at the Earle Brown Center early on Friday to help during the setup. As always, we recommend that any of our club members that are coming to the show to wear their NWCC Green shirts. These are highly recognizable to the dealers, and they know that they can ask us to help with issues that may arise during the show. Descriptions of the volunteer time slots and duties will be at the next club meeting in August. We will be asking each of you to help out at this show.
